# **SIGN PERMIT:**

## **Application Requirements**

A permit must be obtained prior to the erection of any sign (except for those signs exempted from permits in section 101.2 of Appendix H of the *International Building Code 2006* ).

Note, however, that a separate application will not be required for a sign or signs which will be erected as part of construction covered by another application, as long as the plans submitted with that application provide sufficient basis for determining compliance with Appendix H of the *International Building Code* .

All signs requiring a UCC permit must comply with the requirements of Appendix H of the *International Building Code 2006* .

Any person desiring to erect a sign must submit:

- **A completed APPLICATION FOR SIGN PERMIT.**
- **Two (2) copies of a construction plan detailing the information requested on the application form.**
- **Two (2) copies of a site plan showing the size and location of the new construction,** with accurate boundary lines, distances from lot lines, and the established street grades and proposed finish grades.
- **A fee of the amount calculated below** (by check or money order payable to Light-Heigel & Associates.)
